

DRINKS

IF YOU'RE BOOKING A PARTY, TELL US WHAT YOU'D LIKE AND WE'LL DO OUR BEST TO GET IT.

We are proud to be Gloucester Breweries Tap pub in Cheltenham, and therefore the majority of our Real Ales, Keg Beers and stouts are brewed by them. (Our lovely Gins are distilled by them)

We have some bottled organic medium cider in the fridge, but for purists, have various West Country cider, available at room temperature, Bag in Box, behind the bar.

Our ales (only room for two but by god they're good) are kept behind the bar, element cooled with insulated jackets and dropped straight out of the firkin.

We keep a minimal range of 'Popular' lagers in the fridge, but if you're hiring the place for a party, tell us what you'd like, and if we can, we'll stock it.

For a tiny little pub, our range of wines offer superb value for money and we always have Prosecco available by the glass.
